PRIMARY PLANS WILL BE REVISED

Subcommittee Called to Meet at Chairman Ellyson's Home

Next Thursday.

State Chairman J. Taylor Ellyson has issued a call for a meeting of the committee appointed to conform the Democratic party primary plan with the new Byrd-Featherston law on the subject. The committee will meet Thursday, January 23, at 12 o'clock noon, at Mr. Ellyson's residence, 10 East Franklin Street, this city.

An invitation to lunch with the chairman is also included in the notice of the meetings. The passage of the primary law last winter made necessary certain changes with the statute. When the Democratic State Committee met the latter part of March, it appointed a subcommittee to take the matter up. This body reported to the party full committee in Norfolk the night before the meeting of the Democratic State Convention. The report was adopted and ordered referred to the convention.

On the following day, the report of the State committee was presented to the Committee on Resolutions, which declined to go into the matter, recommending that the committee be referred back to the committee.

In September the State committee authorized the chairman to appoint a subcommittee of one from each of the ten congressional districts to revise the party primary plan in accordance with the law. This body has now been called to meet.

It regarded as probable that it will simply ratify the plan drawn by the other subcommittee last spring. The changes to be made are minor, since the vital points altered by the law have already been put in operation and were used in the congressional primaries of the past year.

Thousands Have Indigestion

President of Washington and Lee Addresses Students at Virginia University.

(Special to The Times-Dispatch.)

Charlottesville, Va., January 15.—Dr. Henry L. Smith, president of Washington and Lee University, addressed a large audience of students in Madison Hall, under the auspices of the Young Men's Christian Association, at the University of Virginia, last night. He pictured his conception of ideal manhood for the young men, and urged them to seek to attain that ideal in their own lives.

"Traditional Manhood" was President Smith's subject. He said there were three essentials of real manhood. First, there should be breadth—breadth of intellect, to enable one to see the world in its entirety. In the third place, one should have, in order to attain ideal manhood, height of aim and outlook.

In the second place, there should be depth: one should go deep in human experience and knowledge in order to have deep-rooted principles to guide one in the battle against the temptations of the world. In the third place, one should have, in order to attain ideal manhood, height of aim and outlook.

Before President Smith spoke, Secretary W. W. Brockman, of the university association, announced the Phelps-Stokes lectures, which will begin next week. These lectures, of which there will be four, will deal particularly with race conditions in the South. The first will be by Dr. James H. Dillard, of New Orleans, formerly dean of Tulane University, now president of the Southern Association of the States.

The second lecture will be by Dr. Ulrich B. Phillips, professor of American history at the University of Michigan. Dr. Phillips will speak on January 27. His subject will be: "Blackbelt Negro Labor." Efficiency and Its Cost.

Dr. Phillips will deliver the third lecture on February 11. Mr. Stone is the author of many books and is the owner of several large plantations, on which he has experimented with the negro and other laborers, and he is particularly fitted to discuss his subject, "The Economic Negro."

The series will close with a lecture by Dr. James H. Dillard, of the University of Virginia. His subject will be: "The Public Health Aspect of Race Conditions in the South." Dr. Dillard has spent several years working on this phase of the subject. He has collected and analyzed a mass of data such as has never been done before in this country.

Since this is the first time that any such lectures have been given in this way in the South, invitations will be extended to schools, colleges and universities, within a convenient radius of the university, to send delegates to attend them. It is believed that this will be the beginning of a widespread movement among southern students to tackle, as Southern men, from the South's man's point of view, the important and difficult problems growing out of the negro's relation to life and conditions in the South.

CASE OF McNEILL

On Point Raised by His Counsel

Judge Declares It Mistrial.

(Special to The Times-Dispatch.)

Fayetteville, N. C., January 15.—The libel case against James D. McNeill came to a rather abrupt termination at 4:30 o'clock this afternoon, when, after the Lucas lunacy trial, E. G. Davis, counsel for the defendant, introduced an objection on the ground that a twenty-four-hour suspension of the hearing was prejudicial to his client, and that when the interruption on the proceedings was allowed at noon yesterday the general impression prevailed that the lunacy hearing would not consume more than two hours. This objection was overruled by Judge Ferguson. At this point counsel for the State, asked permission to hold a consultation, and retired from the court room. Immediately upon their return Captain McNeill's counsel asked to be allowed to withdraw his objection, but this was denied by the court. Counsel for the State then announced that they would not rest the case, and in fact, that they would not be proper to continue the trial under the circumstances. Thereupon the judge ordered one juror withdrawn and a mistrial declared.

At the temporary halt in the proceedings yesterday E. G. Davis, counsel for Captain McNeill, was in the midst of his cross-examination of Q. K. Nimocks, private prosecutor, and Mr. Nimocks had just taken his seat in the witness chair this afternoon for a conference of the cross-examination with the jury. The jury was then called to the stand and the trial resumed. The judge ordered one juror withdrawn and a mistrial declared.

Lucas Declared Sane.
(Special to The Times-Dispatch.)

Fayetteville, N. C., January 15.—While experts dealt in technicalities in the trial of the case of the late John Hamilton Bland, Jr., the jury, after a long deliberation, declared for his sanity. The jury, after a long deliberation, declared for his sanity.
